North Ogden City currently has three detectives in our investigations department. The position of Police Detective is specialized police work in the investigation of criminal offenses, accidents, and related police problems as a full time assignment. This work involves police duties in plain clothes and requires the use of considerable discretion and the application of specialized knowledge and abilities in the investigation and detection of crime. Assignments are received from the detective supervisor, and usually are specific cases or types of cases to be investigated to a conclusion, and normally closed with the preparation of case for prosecution. Although work is performed in accordance with established rules and procedures, the detective must exercise considerable independent judgment in his application of these rules and procedures to specific cases. Advice and assistance is available from superiors on unusual situations and work is reviewed through accomplishments, personal inspection and a review of written reports covering activities.
