

I was born and raised here in North Ogden. When I married my wife and I saw the benefits of raising a family here in North Ogden. I am currently employed with North View Fire District and enjoy the opportunity I have to work and serve the people of North Ogden.

As a lifelong resident of North Ogden I have seen this City grow and change over the years. I have been able to watch as the city has grown and expanded. Growing up on a family farm I understand the desire to maintain green space in our community. On the flip side I understand and respect private property owner's rights regarding development. My position with North View Fire District is as the Fire Marshal for this area. I work closely with the Planning Department in reviewing projects as they are presented. I feel that I would be a benefit to the City Council as projects are presented.

I look forward to the opportunity to continue to serve and stand up for the rights of family, friends, neighbors and fellow North Ogden citizens. I look forward to the opportunity to hopefully serve as your City Councilman.
