

Memorandum

To: Mayor and City Council
From: Gary R. Kerr
Date: 6/7/2013
Re: Request for new streetlight in Legacy North 2 phase VI

Mr. George Nichols representing legacy North Homeowner Association is requesting a streetlight be added about 2255 North 575 East which is located mid block, see attached map. The developer would pay for the installation of the streetlight but they want the City to pay for the monthly electrical bill, which would be \$2.50. The existing streetlights in the area meet current city standard which is streetlight should be install at intersections and every 600'. The distance between existing streetlights in this area is about 400 lin. ft.
