This item was requested by a City Council Member for your review. There are several housekeeping items that you will notice as we took the two Resolutions; 13-2010 and 20-2010 and combined them into one document that repeals the other two. Then there is before you the recommendation made by Council Member Fawson who asked this to be on the agenda for the City Council to consider the cap on attendance to committee meetings (currently a maximum of 2) removed.
