

# Letter of Understanding

This letter is to indicate an understanding that a 55' temporary turn around easement on the north end of 1550 East provides public access and will remain in place until such time that the road is extended to the north. This letter addresses a small strip approximately 10' wide by 65' long on the eastern edge of the temporary turn around.

The temporary turn around easement also provides Lewis Barker access road to his property located to the north of lot 20 of the heritage grove subdivision.

I, Bruce J. Hall, understand and agree with these conditions.
