RE: Lewis Peak PRUD Phase 1 & 2

Dear Annette,

Concerning our conversation this morning regarding converting 775 E and 825 E from a private road to a city road; I am petitioning the city to accept these two streets as public roads. As you know from 1700 N going South to the Lewis Peak Subdivision is all ready a public road, then heading East on 1500 N through the subdivision is also a public road. We are requesting to be on the city council agenda dated March 22, 2011. I have contacted Matt at Kent Jones' office; he is very familiar with the subdivision and said that he would determine by Wednesday, March 9, 2011, whether or not the roads meet city specifications for a public street.

Please contact me if you have any questions.

Sincerely,

Lyman Barker
